„Disadvantage in life is only a disadvantage if you think about it that way”

INTRODUCTION

„Emberekért” Közhasznú Nonprofit Kft. entered the domestic market in 1991 as an exclusively Hungarian-owned company with the aim of providing employment opportunities for people with disabilities. Our goal is to enable those with disabilities to gain work experience within our company and to help them regain their ability to work – in accordance with their complex rehabilitation.

WHAT WE OFFER:

By 2020 Emberekért Közhasznú Nonprofit Kft. has become an elemental part of rehabilitation-purpose employment in Southern Transdanubia and in Northern Hungary.

Based on our results so far, we offer the following resources:

- Professional and highly qualified management with experience in production, organization and control
- Dedicated, continuously developing workforce with many years of experience in tasks that require high standard of quality
- Creative staff that maintains high standards in work and is expert in quality control
- Real estate, warehouses and infrastructure

WHAT WE UNDERTAKE:

Complete production processes of outsourced production activities...

... with the technology and machinery provided by the Client, including the provision of both hardware and software;

... with intellectual support of the Client;

... by adopting the Client's quality assurance system in line with continuous audits;

... by keeping the Client's needs in mind
